Reason there are fewer than three comparable properties

☒ **I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.**

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:

[*Insert N/A if there were three comparable properties*]

There are currently no directly comparable properties available for the purposes of the PPS statement. This is primarily due to the particular combination of characteristics exhibited by the subject property, including its location, land holding, improvements, configuration, accommodation and other property-specific attributes. There is insufficient recent sales and listing evidence involving properties with a sufficiently similar profile to establish a reliable like-for-like comparison.
While other properties may share certain attributes, differences in land size, location,

improvements, condition, accommodation, configuration, access, development potential, zoning and utility may materially affect their relevance. Properties offering only partial comparability have therefore not been treated as direct equivalents.
The assessment has not relied upon a single transaction or mechanically applied a rate derived from materially different properties. Instead, available market evidence has been considered collectively, having regard to the degree of comparability and differences from the subject property. Relevant sales and listings have been interpreted within the broader market context.
Particular consideration has been given to the subject property's location, land component, improvements, configuration, accommodation and overall utility. These attributes contribute to its individual market position and assist in determining the relevance of available evidence.
Accordingly, the assessment has had regard to the broader market evidence and the individual characteristics of the subject property. It represents a considered market-based opinion that recognises the limitations of the comparable evidence while appropriately reflecting the property's specific characteristics and market position.

Sale outcome

The sale price of the property must be included in this section within seven days after the unconditional sale of the property unless an application for an exemption is pending or an exemption has been granted.
