Comparable property 3

Address	Sale price	Date of sale
N/A	N/A	N/A

Key Features

Building Type	# of bedrooms	# of bathrooms	# of car spaces	Internal floor space m²	Total land size m²
N/A	N/A	N/A	N/A	N/A	N/A

Reason there are fewer than three comparable properties

X **I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.**

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:

Two comparable properties have been identified for the purposes of the PPS statement. These provide relevant evidence of current market conditions and purchaser behaviour and assist in establishing an indication of market value. However, limited properties with a sufficiently similar combination of characteristics are available to establish a broader range of direct comparisons. The identified comparables have been considered as relevant market evidence rather than direct equivalents to the subject property. Appropriate regard has been given to their similarities and differences in location, land size, improvements, configuration, accommodation, condition, presentation, access and utility, which may influence market appeal and value. The limited availability of directly comparable properties reflects the particular characteristics and market position of the subject property. Its combination of location, land holding, improvements, configuration, accommodation and overall utility should be considered collectively when interpreting the available evidence. Both comparables provide useful guidance regarding prevailing market conditions; however, their relevance has been considered having regard to their respective similarities and differences. The evidence has not been applied mechanically. Broader sales and listings have also been considered where they provide useful market context. Accordingly, the assessment has been undertaken having regard to the two identified comparables, broader market evidence and the individual characteristics of the subject property. This approach avoids undue reliance on any single transaction while maintaining a clear connection to actual market evidence. On this basis, the adopted assessment represents a considered market-based opinion that balances the available comparable evidence with the specific characteristics of the subject property and the limitations of the current comparable market.

Sale Outcome

The sale price of the property must be included in this section within seven days after the unconditional sale of the property unless an application for an exemption is pending or an exemption has been granted.

Sale Price	$_____
Unconditional sale date	_____/_____/_____
