<b>Building Manager's Report</b>	
	The Building Manager tabled a report for the Committee to consider and the following was discussed in addition to agenda items.
<p><b>- Fire Doors</b> (Status Open)</p>	<p>Following a recent inspection by QFES, two areas were highlighted for repairs. A fire extinguisher needs repairs as a hose was cut and some lot fire doors are not compliant.</p> <p>Regarding the Fire Doors, the Caretaking Contractor to contact MB Fire to provide an updated quote as not all fire doors open onto common property. Those fire doors that open within the confines of the lot boundary are the responsibility of the respective owners to replace.</p> <p>Lots 16 &amp; 29 missed the inspection by QFES and are therefore responsible for the cost for QFES to re-attend. The Caretaking Contractor to provide the costs for re-attendance.</p>
<p><b>- Anchor Point Inspections</b> (Status Closed)</p>	The Committee has engaged SRA Services Group to certify the anchor points for the next three years.
<p><b>- Recycling Service Upgrade</b> (Status Open)</p>	The recycling area is in the process of being upgraded. The area is currently being prepared for the recycling bins.
<p><b>- Unit 8 Balcony</b> (Status Open)</p>	<p>Water ingress is occurring into Unit 7 from the lot above. The Committee has advised that there was no membrane ever installed at development. The BCCM Act is very clear that the body corporate is responsible for maintaining membranes. However, this obligation does not extend to having to install a waterproofing membrane.</p> <p>The Strata Manager will issue a letter to the owner of lot 8 advising of the water ingress into lot 7 deriving from the balcony of lot 8.</p>
<p><b>- Unit 29 - Renovation debris in car space</b> (Status Open)</p>	The tenant in Unit 29 has placed renovation debris in their car space that was left within the premises when the tenants occupied the lot. The Body Corporate Manager will send a letter to the Real Estate Agent to request the removal of the renovation debris as this is not a Body Corporate issue.
	<b>Resolved</b> that the Building Manager's Report be accepted.

	Vote:                      Yes 3                      No 0                      Abstain 0
<b>Business Arising from Last Meeting</b>	
<b>- Flexi Hoses</b> (Status Open)	The body corporate manager will contact owners that have responded to the survey to arrange an inspection.
<b>- Roof Screw Replacement</b> (Status Closed)	See Building Managers report.
<b>- Dripping Gutter Lot 21/11</b> (Status Closed)	The matter is being monitored. No further action required at this point.
<b>- New Letter boxes</b> (Status Closed)	Completed. No further action required.
<b>- Exterior Lights Sensors/Solar</b> (Status Closed)	Completed. No further action required.
<b>- RCD Testing &amp; Tagging</b> (Status Closed)	Ongoing testing to be carried out every six months.
<b>- Paint Maintenance Program</b> (Status Closed)	No further action required.
<b>- Paint Maintenance Front fence</b> (Status Open)	This matter is ongoing.
<b>- Pump Service</b> (Status Open)	This matter is ongoing as a rolling job.
<b>- Annual Fire Review &amp; Evacuation Exercise</b> (Status Closed)	Completed. No further action required.
<b>- Recycling GCCC and Collection</b> (Status Open)	See Building Managers report.
<b>Items to Monitor</b>	
<b>Common Property Safety</b>	<p>As a standing agenda item, the Committee asked if there are any new Common Property safety issues that require the attention of the Body Corporate.</p> <p>Unit 13 - It was noted that a jet ski was parked in the basement car park. The</p>

	<p>body corporate manager will issue a letter to the Real Estate Agent to request removal of the jet ski.</p> <p>Cat Roaming - A gray cat has been seen roaming the complex. No record of approval can be located. All owners are reminded that all pets within the complex must be approved, and further must be confined to the lot.</p> <p>Should the owner of this cat be identified, please report this to the Strata Manager.</p> <p>Unit 6 - An unapproved cat has been observed at this lot. The Strata Manager will issue a letter to the occupant.</p>																			
Insurance Claims	<p>The current flooding claim due a burst flexi hose is ongoing and under the management of the loss adjuster. The scope of work has been prepared. An additional owner came forward to be included in the claim. However, it was revealed that this matter was not attached to the flooding claim but failure of the membrane in the shower which is the owners responsibility.</p> <p>All owners are to ensure that they have had their flexi hoses checked and replaced. As a result of this claim, it is likely that the excess for the policy will likely increase making a claim difficult should this occur again.</p>																			
Date of next Meeting	Monday, 26th February, 2024 at 10:00 am via Zoom.

<b>Business Arising from Last Meeting</b>	
<b>- Fire Doors Lots 16 &amp; 29</b> (Status Open)	The contractor attended to make a second attempt to painting the doors and again, this was not to standard. The fire contractor will issue the invoice for the replacement doors and not charge for the poor works performed by his subcontractor. All owners that had their fire door replaced (within the lot boundary) will be invoiced shortly.
<b>- Gutter</b> (Status Open)	Quotations were obtained and Maxiflow engaged to perform these works. The work is expected to be completed on the 17th June, 2024 (AM).
<b>- Pump Services</b> (Status Open)	The Committee agreed to review other service providers given the reduction of services being provided by the current contractor.
<b>- Flexi Hoses</b> (Status Closed)	<p>The Committee extends their thanks to those owners that completed the survey to confirm that either a) the hoses have been replaced/inspected or b) that they have arranged replacement.</p> <p>The survey offers a reminder to all lot owners that the flexi hoses are the responsibility of the lot owners and must be inspected regularly. Should any further claim derive from the rupture of a flexi hose, the Committee advises that the respective owner will be responsible for the \$5,000.00 excess should this occur again.</p>

<b>- Lot 8 - Balcony</b> (Status Closed)	All works have been completed. No further action is required.

<b>- Unit 27 - Missing Gutter</b> (Status Open)	<p>The missing section of gutter was due to the owner installing a shade sail. This gutter requires replacement however it appears that after 18 months of communications, this replacement is yet to occur.</p> <p>The Strata Manager is to issue a 14 day notice for this work to be attended to.</p> <p>Should this not be performed, the Committee <b>resolved</b> for the Strata Manager to issue a 7 day entry notice to have these works performed, and on-charged to the owner.</p> <p>Vote:                      Yes 4                      No 0                      Abstain 0</p>
<b>- Letter to Augusta Palms</b> (Status Closed)	The Body Corporate cannot provide definitive evidence that the previous pipe break was due to the tree deriving from Augusta Palms. However, the Strata Manager issued a second letter to the Scheme requesting that they consider the request as a preventative measure of future plumbing concerns.
<b>- The Community Co app</b> (Status Closed)	This matter is now resolved. No further action is required.

## SECTION B – SINKING FUND FORECAST

### 2.1 GENERAL INFORMATION

The estimates in this forecast are based on the typical usage for a building of this type.

This forecast has been based on a reasonable estimate of the expected life of the components listed in the forecast. The actual life of the components can be expected to vary from the estimated life and will be affected by maintenance programs, climate and environmental conditions, material failure, misuse and design errors etc.

This forecast is based on the assumption that the Body Corporate Committee or onsite Manager will implement a maintenance policy to recognize and encourage regular maintenance expenditure in the prevention of larger remedial capital expenditures.

The contributions and expenses in this report should be reviewed on an annual basis to take into account any change in condition of the building, new work that may have been attended to or changes in the Sinking Fund balance. It will also require updating if there is a change in any statutory requirements affecting this project.

### 2.2 LIFE EXPECTANCY

This forecast is based on the estimated life allowances sourced from industry trade specialists. The estimated life of the products is a guide only and the actual life may vary based on the site conditions and maintenance programs.

The estimated life of the components as listed in the elemental breakdown of this forecast.

E.O.L = Estimated overall life

E.R.L = Estimated Remaining Life

Other important information that could help save a young child's life

It is the pool owner's responsibility to ensure that the pool (including the barriers for the pool) is properly maintained at all times to comply with the pool safety standard under the *Building Act 1975*. High penalties apply for non-compliance. Parents should also consider beginning swimming lessons for their young children from an early age. Please visit

This pool safety certificate does not certify that a building development approval has been given for the pool or the barriers for the pool. You can contact your local government to ensure this approval is in place.
