Reason there are fewer than three comparable properties

☒ **I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.**

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:

[*Insert N/A if there were three comparable properties*]

In preparing the Property Price Statement for the above-mentioned property, I was unable to identify three comparable properties that met the relevant criteria within the required timeframe. While there have been a number of comparable properties sold within the relevant area, these sales occurred under different market conditions to those currently for sale. Furthermore, the subject property's features and side-by-side configuration differ from those of other properties sold within the area, making it difficult to identify directly comparable sales. As a result, the historical sale prices may not accurately reflect current market conditions or provide a meaningful indication of the subject property's present market value. As a result, the Property Price Statement includes two recent comparable sale that was considered the most relevant available comparison based on the available sales data, property characteristics and current market conditions. This approach is intended to provide a fair and accurate market context based on the most relevant

available data, while taking into consideration the differences in property configurations and the changing market conditions since the comparable properties were sold.

Sale outcome

The sale price of the property must be included in this section within seven days after the unconditional sale of the property unless an application for an exemption is pending or an exemption has been granted.
